

# Wholesale: Fixed-Wireless Internet Access

## The internet access service your customers will never outgrow

Airband provides an internet access service that is uniquely suited to your customers ever-changing needs, whether they are a small business or a Fortune 1000 company. With our WiMAX fixed wireless network, Airband literally goes above and beyond existing landline infrastructure to eliminate installation hassles and deliver lightning fast speed – all at affordable rates. And our services can be installed in a fraction of the time generally quoted by traditional providers.

**2 to 20 Mbps Delivered in Days:** With Airband, you can install new service without the hassles and long lead times associated with traditional landline services. Initial installation takes just a matter of days, not weeks or months. Bandwidth can be easily upgraded within hours.

**Capacity to Handle Bandwidth-Intensive Applications:** Airband offers service up to GigE speeds, designed for applications requiring high-bandwidth.

**Ethernet Connectivity:** Our data service is delivered via an Ethernet connection, making it simple for your customers to manage and connect to their LAN.

**Reliability You Can Count on:** Airband deploys eight levels of signal modulation to address fade and our radios automatically choose the appropriate level to ensure optimal throughput.

**Secured Transmissions:** Our wireless hardware utilizes 128-bit Advanced Encryption Standard (AES) to protect end-user data.

**Ensuring Quality of Service:** We're the only fixed-wireless provider in the industry that has service level guarantees on jitter, latency and packet loss.

**Single Point of Contact:** Airband operates and manages our wholly-owned network, so you can expect to work with the most responsive service team in the industry.

## KEY BENEFITS

- Scalable bandwidth on demand
- Installation in days
- Ethernet connectivity
- 100% uptime guarantee
